UX/UI Designer

I'm a mid-level UX/UI designer with 2 years of experience in creating visually appealing and functional software products. I focus on blending aesthetics with usability to deliver intuitive and meaningful user experiences. With a strong sense of problem-solving and creativity, I design solutions that maintain a perfect balance between form, function, and user satisfaction while aligning with product's goal.

Professional Experience

SparkTech Agency

UX/UI Designer

June 2024 - Present

Overseeing the complete design process, from understanding requirements and creating user flows, wireframes, and prototypes to final UI design and usability testing.

- Designed full software products from detailed requirement and feature lists, ensuring every element aligned with user needs and business goals.
- Applied user-centered design principles to deliver clean, functional, and visually engaging interfaces that improved overall user satisfaction.
- Collaborated directly with foreign clients, gathering feedback and turning it into actionable design improvements while maintaining clear communication throughout projects.
- Worked closely with developers to ensure designs were technically feasible, consistent, and smoothly implemented across platforms.

Education

University of Global Village, UGV, Barishal.

Bsc in CSE

Jan 2020 - Dec 2024

- Relevant coursework: Human-Computer Interaction, Software Engineering, Database Management, Web Development, Data Structures & Algorithms, Computer Networks
- Built a strong foundation in technology and software development, which supports my ability to design user-friendly and technically feasible digital products.

Projects

DEALR

[App Store](#)

[Play Store](#)

[Website](#)

- Designed user-centered UX flows, wireframes, and intuitive interactions for deal discovery and voucher redemption.
- Translated UX concepts into polished high-fidelity UI with a consistent design system and seamless mobile experience.

Quranity

[App Store](#)

[Play Store](#)

[Website](#)

- Shaped a calm and engaging digital experience for Qur'an learning, Islamic stories, daily reminders, and spiritual reflection.
- Bridged traditional Islamic content with modern features like AI Q&A, audio recitation, Hadith, and prayer tools.

Bonavent

[Play Store](#)

[Website](#)

- Crafted intuitive user journeys for vehicle browsing, rental booking, scheduling, and user-host interactions.
- Designed clean, high-fidelity mobile interfaces with a scalable design system and focus on usability.

Core Competencies

- UX & Research : User Flows, Information Architecture, Wireframing, Prototyping, UX Research, Usability Testing
- UI & Product Design : UI Design, Interaction Design, Mobile & Web Design, Design Systems, Responsive Design
- Tools & AI : Figma, FigJam, Adobe XD, Photoshop, Illustrator, Figma AI, Lovable, Claude
